

Mains Mastery - Official GitHub Repository

Link: <https://github.com/dharmadhikarirutuja1-cmd/UpSC-mains-evaluator->

Note: This repository contains the backend server.py and frontend NewEvaluation.jsx files for the Mains Mastery PWA.

Technical Project Details

Mains Mastery is an AI-driven application designed to provide feedback on handwritten answers [cite: 1]. The following files are core to its architecture:

- **server.py:** The backend script that handles processing and logic.
- **NewEvaluation.jsx:** The frontend React component that facilitates the user interface for evaluation.
